

HCLTech-Style Online Assessment - Easy Mock Test (Set 1)

Software Developer / Graduate Engineer Trainee Preparation - Beginner Friendly

Total Questions	75
Total Time	90 Minutes
Difficulty	Easy (foundation level)
Negative Marking	Practice simulation: No negative marking
Sections	Quantitative Logical Verbal Technical Pseudocode
Topic Tags	Every question shows its topic above it

Important: This is an HCLTech-style preparation mock, not an official HCLTech question paper. It is the easy-level companion to the moderate-to-hard mock: same 75-question structure and the same five sections, but with foundation-level questions to build speed and confidence. Assessment structure can vary by hiring program, role and drive.

Trainer Note: Use 90 minutes as the target time (most students should finish in 60-70 minutes at this level). For a stronger simulation, enforce sectional timing: Quantitative 18 min, Logical 18 min, Verbal 15 min, Technical 15 min, Pseudocode 24 min. Questions test foundation concepts, direct formula application, basic grammar, core CS fundamentals and simple code tracing. After this set, move to the moderate-to-hard mock.
